

24/7 the Game

24/7 the Game is a light abstract strategy game that combines elements of both luck and skill. Using durable Domino-like tiles on a full color game board, players take turns laying tiles on a 7x7 grid and score points for adjacent tiles that create runs, sets and sums of 24 or 7.

In *24/7 the Game*, players score for combinations of tiles in four directions. While the importance of tile placement and strategy is a key to winning, the element of luck is present as combinations of tiles take shape in vertical, horizontal and diagonal directions.

Play a tile and score points or block your opponent from scoring. By keeping the right balance between offensive and defensive tile placement, you'll keep your opponents on their toes as you rack up points.

24/7 the Game is a challenge for 2 to 4 players, ages 8 and up and will keep players' basic mathematical skills sharp as the minutes fly by!

"Very easy to pick up and play, so will appeal to a broad base." -- Shade Jon on boardgamegeek.com

"This is a game with nice components, well thought out scoring and it can be easily learnt and played by casual gamers." -- Eric Dodd on boardgamegeek.com
