

# Arthur<sup>™</sup> Saves the Planet – One Step at a Time!

In the award-winning *Arthur<sup>™</sup> Saves the Planet: One Step at a Time*, Arthur and his friends and family work together to address environmental issues that threaten their hometown of Elwood City. From littered beaches to endangered tree frogs, from deforested parks to wasted water, the team has its work cut out for it. And YOU can help! Pick an Arthur-series character and collect colored resource cards that represent time, expertise, friends, effort and advice. Use these resources to solve the challenges and, in return, receive tree seeds to help restore Elwood City to its natural beauty! Underscoring the spirit of “green,” the paper products used in *Arthur Saves the Planet* are made from recycled material.

*Arthur<sup>™</sup> Saves the Planet* comes with two sets of rules, one for older children and one for children ages 4 – 7 (no reading required). A cooperative variant of the game play is also included.

This game has been used successfully in the classroom to spur discussion about environmental issues. It has also been played by groups of parents and children during PBS’s Kids and Family Club events.

Game designed by Mike Siggins
