

# Desperados

**Times were mighty hard** for miners during the Gold Rush. Rival miners fought over the rights to the few productive gold, silver and copper mine sites. Then came the Desperados. Those gold thieves and mine robbers showed up in all shapes and sizes. It was best to have the help of a reliable partner to fight 'em off.

In *Desperados*, two players form just such a partnership in order to prospect and develop gold, silver and copper mines. So grab a partner and work those mines together, stay ahead of your rival prospectors, and watch out for those pesky Desperados!
